THE BOTTLENOSE DOLPHIN

Table of Contents

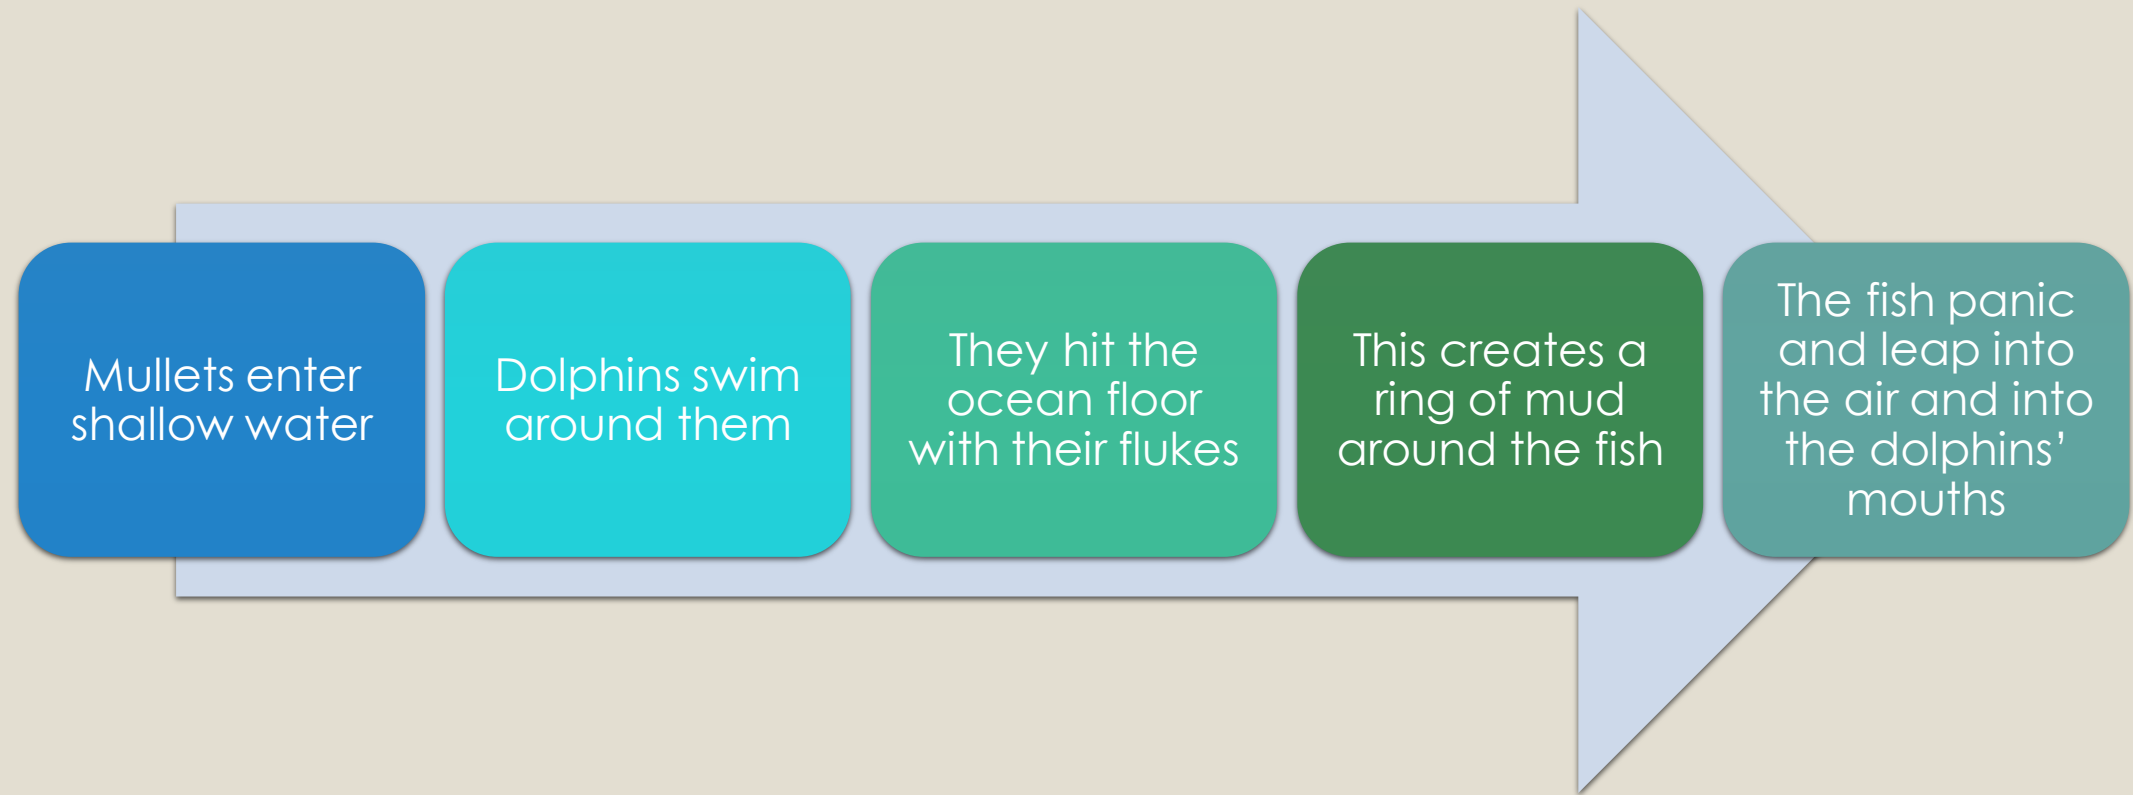

A photograph of several dolphins swimming in the ocean. The dolphins are dark grey or black, and their dorsal fins are visible above the water. The water is a deep blue-green color with some white foam from the dolphins' movement. The title 'HOW DOLPHINS HUNT' is overlaid in the center in a large, white, sans-serif font. The text is arranged in two lines: 'HOW DOLPHINS' on the top line and 'HUNT' on the bottom line. The text is centered horizontally and vertically within the frame.

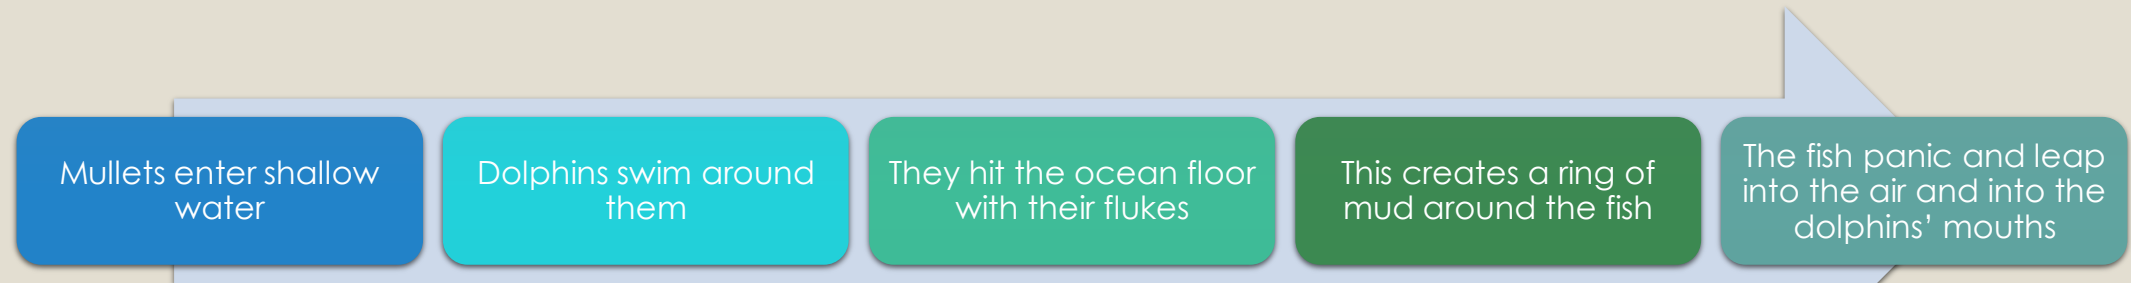

HOW DOLPHINS HUNT

Kerplunking Process

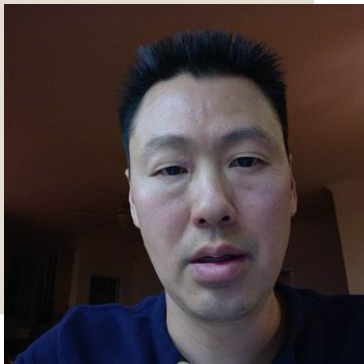

- Mulletts enter shallow water
- Dolphins swim around them
- They hit the ocean floor with their flukes
- This creates a ring of mud around the fish
- The fish panic and leap into the air and into the dolphins' mouths

Kerplunking Process

Kerplunking Process

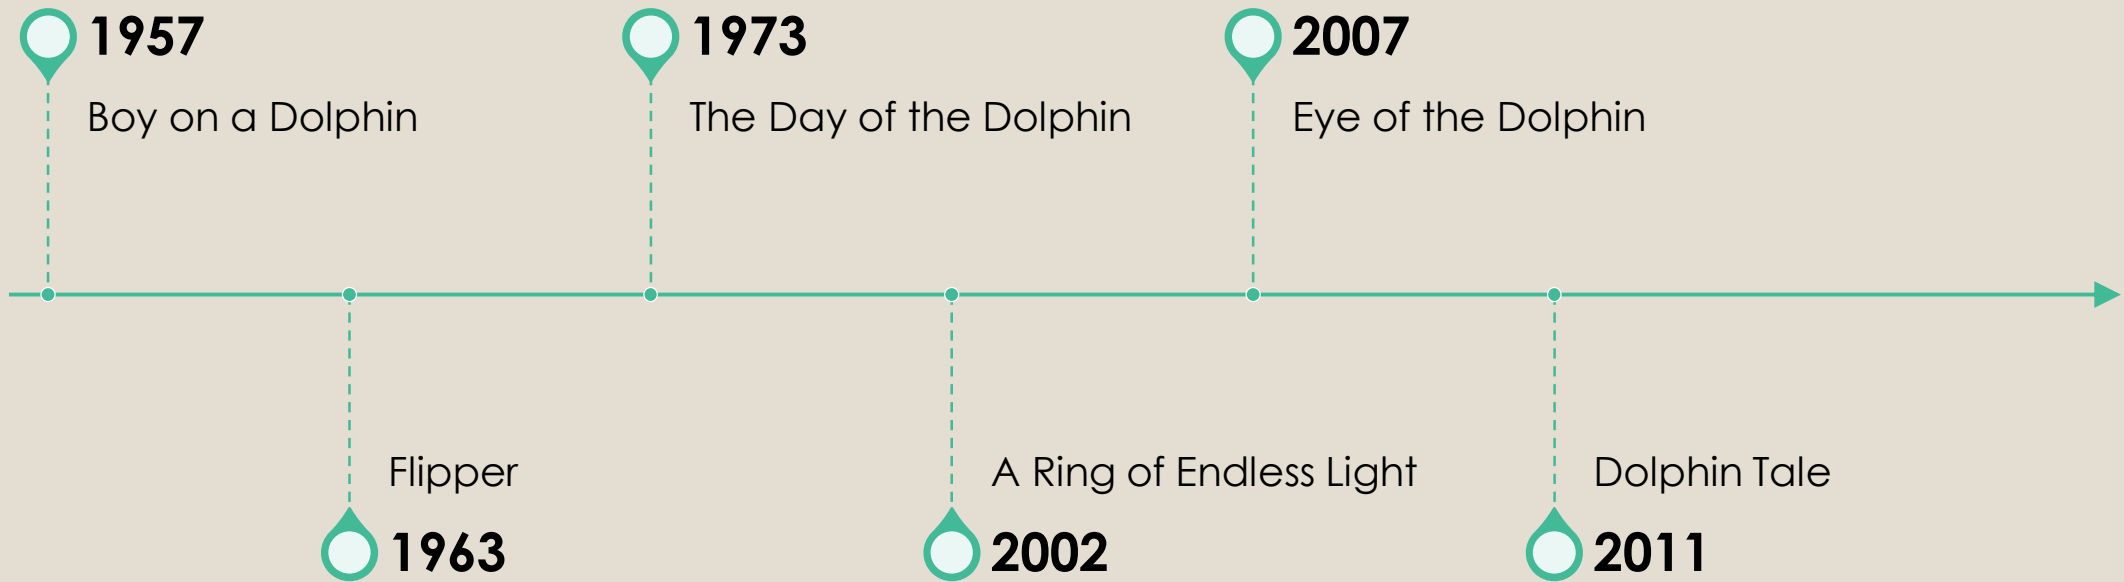

A woman in a blue shirt and dark shorts is swimming underwater, reaching out towards a dolphin. The dolphin is curved in the air above her. The background is a deep blue ocean with some bubbles. The entire scene is framed by a thin white border.
